September 2003

59% Poster Weekend - 6th & 7th September

This weekend a tremendous amount of work went into erecting boards and posters all across the Hunt Country. In particular, sites on major roads were targeted so as to ensure that the public and government are aware of the strength of feeling in the country. Please feedback comment in respect of any areas which you feel are not adequately cover, particularly where large numbers of people would be able to see them easily. Also, let us know if there are any posters which need replacing (due to vandals etc).
